

Go to cs2advertising.com/ar

Make sure your webcam is turned on.

Some webcams have a light that goes on when the webcam is activated.

Make sure the logo marker page is well lit.

Be sure to face the logo marker directly towards the camera, without bending the page.

Mac users may need to activate the webcam via the "Flash player settings".

Simply right-click in the middle of the video area to the [RIGHT/LEFT],
select the webcam icon and choose USB video from the drop down.

Opening this page multiple times on one computer will give unpredictable results
